Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO — Coastal Environmental Systems*, Seattle, WA, is being awarded a \$2,977,598 firm fix-priced contract for production of the Shipboard Meteorological and Oceanographic Observation System (SMOOS). SMOOS is an integrated suite of in-situ sensors, products, and user interfaces for collecting, processing, distributing and displaying meteorological and oceanographic information at ship, shore and mobile sites. This contract includes options which, if exercised in the most likely amounts and quantities, would bring the cumulative value of this contract to \$15,717,179. Work will be performed in Seattle, WA, and is expected to be completed by May 2002. Contract funds will not expire at the end of the current fiscal year. This contract was competitively procured with 60 proposals solicited and three offers received via the SPAWAR E-commerce web site. The Space and Naval Warfare Systems Command, San Diego, CA, is the contracting activity (N00039-01-C-2209).

*Small Business
